

Shawn Ryan C. Nacario

Lapu - Lapu City, Cebu 6000 • shawnr Yannacario@gmail.com • +63 927 223 2334 • shawnrryan.vercel.app

Profile

Information Technology student with hands-on experience in full-stack web and mobile application development using modern JavaScript frameworks. Skilled in building scalable systems using React, Next.js, Node.js, and multiple database technologies. Experienced in developing real-world platforms, including event management systems, mobile applications, and interactive 3D web portfolios. Strong foundation in software engineering principles, networking (CCNA), and cybersecurity (CyberOps).

Technical Skills

Front-End Development

React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Framer Motion, Aceternity UI

Backend Development

Node.js, PHP, REST API Development, Authentication & Server-side Logic

AI Skills

Prompt Engineering, Vibe Coding

Programming Languages Databases

Java, C, C#, Python

Databases

MySQL, PostgreSQL, MongoDB, Supabase

Tools & Platforms

Git, GitHub, GitLab, Vercel, VS Code, ESLint

EDUCATION

University of San Carlos

Bachelor of Science in Information Technology.
Dean's Lister

Cebu City, PH
Expected Graduation: January 2027

University of Cebu – Lapu-Lapu and Mandaue

Science, Technology, Engineering, and Mathematics
Graduated with Honors.

Cebu City, PH
2020 - 2022

Projects

G-Events: A QR Code-Based Event Registration System

- Developed a centralized event management system with real-time registration workflows
- Implemented QR code-based attendance tracking for automated verification
- Built an admin dashboard for event monitoring and analytics
- Integrated blockchain-backed e-certificate issuance for secure validation

Lightwork: Your Fitness Tracker, Anywhere

- Built a cross-platform fitness tracking mobile application
- Implemented a calendar-based workout scheduling system
- Developed user profile management and data-driven progress tracking features

Creative Portfolio: Interactive 3D Website

- Designed an interactive 3D portfolio website with modern UI/UX animations
- Implemented particle-based visual effects and a Bento-grid layout
- Showcased projects using a dynamic and immersive presentation

DentEase

- Built a responsive dental booking application using a React (Vite) frontend and an Express/Node.js backend.
- Developed user registration and authentication workflows backed by JWT sessions and secure cryptography.
- Created an administrative portal to manage dentist schedules, services, and appointment workflows in real-time.

- Engineered dynamic patient profile management interfaces linked to a centralized MySQL database.

III. Certificates

Tech, AI& Career Readiness Program - Vietnam Immersion Saigon Business School	May 2026
AI Experience Global City, Vietnam	May 2026
CyberOps Associate CISCO	October 2024
CCNA: Switching, Routing, and Wireless Essentials CISCO	September 2024
Introduction to Cybersecurity CISCO	August 2024
Creative Web Design Call Center Academy	December 2023

IV. SKILLS & INTERESTS

Language: Native/trilingual proficiency in English, Filipino, and Cebuano

Interests: Artificial Intelligence & Generative AI, Modern Web Technologies, Cloud Computing & Deployment, Automation & Productivity Tools, Cybersecurity & Network Technologies, User Experience Design
